DESIGN AND TECHNOLOGICAL SOLUTIONS

Your partner in the optimization of transport systems.

RSE
 ENGINEERING

RS Engineering sp. z o.o. focus on creating specialized solutions for transport. We present you an innovative and patented solution for transport pallet.

✓ **THE MOST IMPORTANT FEATURES OF THE PRESENTED SOLUTION:**

- the possibility of folding and stacking transport pallets
- **the possibility of reducing the costs of return transport by 50%**
- a pro-ecological product that can replace wooden disposable pallets, reduces the number of return transport vehicles
- **pallet folding time below 30s (1 person)**
- load capacity up to 2.5t
- tool-free folding and unfolding system
- warranty on articulated elements and fastenings - 2 years
- **stacking racks - 6 pieces for one transport location**

If there is such a need, we can adapt the transport pallet to individual customer needs.

Capacity:
Up to 2.5t

Dimensions:
1500/2000/2400 x 1200 x 2185

Warranty on articulated elements and fastenings:
2 years

Weight:
1500 – 200 kg
2000 – 220 kg
2400 – 240 kg
